

PLEIN AIR EVENT!

February 2024

PAINT-IN-PLACE

With February weather unpredictable, we encouraged everyone to paint at the place of their own choosing.

This could be done outside or inside.

Here are those that painted-out-in-place! Enjoy!

PLEIN AIR IN PLACE

Here's my painting for the Plein Air in Place Session. This was actually my first plein air from my deck. It was nice to hear the creek. I haven't worked in pastels for a while, and struggled dealing with the 'mottled texture' of my Pastel Premiere sanded paper-(which was pre mounted on 8 ply board). Maybe the adhesive is showing through? Thank you for the challenge!

**Susan Havey,
Horse Shoe, NC**

“Mountain View from Deck” 11” x 14”

February 2024

PLEIN AIR IN PLACE

Here is my weekend piece, "Plantscape". The scene is in my studio so it was handy. For the first time I used "Mi-Tientes Touch" paper and found the fine grit limited layering. I used hard and soft pastels. Looking forward to working outside for quick impressions, speed and more looseness.

The size is 14.25" x 20.25".
Thanks for another painting inspiration!

PLEIN AIR IN PLACE

I was in the process of going through old emails and found this picture. Wayne texted person who sent it to see if I could use it. Permission granted.

It's a photo of Valentine Heart pond at Triple Falls.

Since Valentines day is this week I thought it was perfect. The falls are for another time.

Nancy Clausen
Swannanoa, NC

PLEIN AIR IN PLACE

Greetings,

From a photo of a nearby waterfall after a recent big downpour, turns a trickle into a torrent.

This 6"x8" on Uart 400 was sketched and blocked in previously which I worked on and refined yesterday. It's a scene that I return to since it morphs with the seasons and weather events.

PLEIN AIR IN PLACE

Hi! I am a member from Pennsylvania. I packed my plein air gear in hopes of being outside. Because it was gray I decided to paint from a still life that I set up in my studio. I used this opportunity to prepare for a larger commission so it does not have an official title other than papaya study. It measures 12 x 12. What I learned was that I need to do more preliminary sketches to explore different compositions.

PLEIN AIR IN PLACE

"Ah snow". 10" x 8" .

I so much would like some snow this winter. At least I can create it in my studio. Cheers,

Don Osterberg
Hendersonville, NC
